

ORTHODELUX[®]

Anti-Fatigue Hospital Mat

The Orthodelux[®] Mats are expertly designed to provide exceptional comfort by reducing fatigue in the back, neck, and feet during extended periods of standing. Crafted from 100% polyurethane, these mats offer consistent support and long-lasting durability. With TGA certification for use in hospital theatres and the ability to withstand autoclaving up to 204°C, they are perfect for maintaining a hygienic environment in healthcare settings.

- TGA certified: Safe for use in hospital theatres.
- Antimicrobial by nature, made with inert polyurethane that will not support bacterial growth.
- Flame and Heat-resistant
- Puncture, rip and stain resistant
- One-piece construction: Prevents delamination, even when cut or torn.
- 20-degree beveled edges to easily roll trolleys over.
- Slip-resistant top and bottom.
- Autoclave tested: Withstands temperatures up to 204°C.
- Ergonomic benefits: Offers comfort without sacrificing cushioning.
